February 16, 2017

Dear Electric Customer,

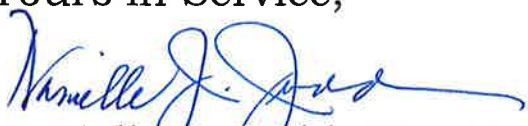

The City has contracted with Hooper Corporation to convert our outdated 4 kV electrical infrastructure in your neighborhood to new 13 kV infrastructure in order to improve system performance.

You will begin to notice Hooper crews in your area on Monday, February 20th through Monday, April 17th on a weekly basis. They will be replacing poles, wires, transformers, and other electrical equipment. We've included a map on the reverse side of this notice that shows the general boundaries of the project, **outlined in green.**

As the Hooper crews complete segments on your street, they will need to do a planned electrical outage. This is necessary in order to ensure that the new equipment works properly. **You will be given at least three (3) days' notice for any planned outage.** Direct notification will be given to you by our contractor, Hooper Corporation.

If you have any questions regarding this notice, please contact the City's Electric Department at 904 297-7094.

Yours in Service,

Danielle J. Judd, City Manager
