## Executive Summary

### External Competitiveness Takeaway

Overall, job titles at Green Cove Springs are compensated 7.1% below the 50<sup>th</sup> percentile of the market (for reference, in comparison to the 60<sup>th</sup> percentile of the market job titles are 13.2% below market and 18.0% below market in comparison to the 70<sup>th</sup> percentile). The 50<sup>th</sup> percentile indicates that half of the comparators pay more/half less than Green Cove Springs. Recommendations for holistic compensation adjustments for all job titles in the City are delineated in the report. No wage reductions are recommended.

Department	50 <sup>th</sup> Percentile External Market
City Clerk's Office	12.0% below market
City Manager's Office	7.5% below market
Development Services	5.2% below market
Electric	13.8% below market
Finance	9.8% below market
Human Resources	4.4% below market
Information Systems	2.5% below market
Parks & Recreation	9.0% below market
Police	4.8% below market
Public Works	6.2% below market
<b>Overall Average</b>	<b>7.1% below market</b>

## Process

---

Paypoint HR is pleased to present this comprehensive Classification and Compensation Study to Green Cove Springs, Florida. The study began with an initial kick-off meeting with the Green Cove Springs Project Team on May 15, 2024. The Final Report was completed for presentation to the City in Summer 2024.

The point of the Executive Summary is to give an overview of the most important issues and opportunities identified by the consulting team during the study. The reader is highly encouraged to read the document in its entirety to gain an understanding of the recommendations within the report. The study takes into consideration both short and long-term concerns. The intent of the study was to provide leadership with a process for ascertaining equitable value of positions on a competitive salary scale. The study compared existing pay to compensation scales of organizations identified to be valid comparators to the City. This report provides a review and update of the classification and compensation plan for the City's employees. Paypoint HR has identified opportunities, but it is up to the City's leadership to determine which are most appropriate and the timing of implementation.

In considering the options for implementation, it is critical to understand the costs and benefits related to each option. By utilizing market data and analysis it is possible to make informed decisions regarding possible changes. However, in addition to the quantitative economic cost and benefit, it is important to consider the social/cultural impact of implementation and management. Green Cove Springs will need to consider all components in making final decisions.

The study was divided into two parts: a classification phase and a compensation phase. The classification phase included identification, review, and analysis of specific work being performed in various positions. That data was then used to simplify positions and match them to the external market in an "apples to apples" comparison. The compensation phase consisted of an initial baseline analysis and an external market survey of public organizations to determine what the labor market pays for specific jobs.

The study included approximately 134 employees within roughly 91 distinct classifications. The study recommendations indicate what actions should be taken to avoid the loss of qualified staff and address difficulties in recruiting new employees for the City. In addition, it was expected that the study would recommend adjustments to the City's salary placement procedures, policies, and salary structure, to allow appropriate ongoing compensation administration.

Comprehensive surveys like this establish a credible pay structure that is fair for the work completed and strategically positions Green Cove Springs competitively in the labor market. The desired result is the improved ability to attract and retain quality staff that perform at high levels to meet the growing demands of the community.

## Major Milestones for the Project

The study began with an initial kick-off meeting with the Green Cove Springs Project Team on May 15, 2024.

Employee Briefing Sessions were held in the City on June 11<sup>th</sup> and 12<sup>th</sup> with groups of employees from all departments to discuss the project, their roles, and to review the job analysis questionnaire.

Paypoint HR conducted a job evaluation for an internal review of job family classifications based on the responses to the PVPs.

An analysis of the existing pay scale was completed.

Internal positions were reviewed, and benchmark positions were selected for inclusion in the external survey.

An external market survey was sent out to a total of 68 comparator organizations and responses from 36 participants were collected. Typical surveys of this type yield a 5-10% response rate.

### Survey Respondents

Alachua (Electric only)	Auburndale	Bushnell (Electric only)	Clay County Utility Authority
Clay Electric Cooperative	Cocoa	Cocoa Beach	Fernandina Beach
Gulfport	Jacksonville Beach	JEA	Kissimmee Utility Authority
Lady Lake	Lake Worth Beach (Electric only)	Lakeland (Electric only)	Lantana
Maitland	Marco Island	Miami Springs	New Port Richey
New Smyrna Beach (Electric only)	Newberry (Electric only)	North Palm Beach	Oldsmar
Orange City	Orange Park	Palatka	Safety Harbor
Satellite Beach	Sebring	Seminole	South Daytona
South Miami	St Augustine	Stuart	Tavares

## Recommendations

### 50<sup>th</sup> Percentile of Market – General Employees

1. Raise the salary of 4 positions that are below grade minimum market, first, at a cost of \$6,560.
  - 1 Administrative Assistant (\$1,333),
  - 1 Information Services Director (\$1,749),
  - 1 Network Administrator (\$897), and
  - 1 Planner I (\$2,581).
2. Raise the salary of 29 positions that are *substantially* below market, second, at a cost of \$240,975.
  - 2 Apprentice Electric Linemen (\$17,509 total),
  - 1 Assistant Finance Director (\$28,993),
  - 1 Building Assistant (\$5,936),
  - 1 City Clerk (\$10,079),
  - 1 Development Services Representative (\$7,043),
  - 5 Electric Linemen (\$36,920 total),
  - 1 Electric Utility Superintendent (\$28,262),
  - 1 Electrical Engineer (\$8,424),
  - 1 Information Systems Technician (\$10,652),
  - 3 Laborers II (\$16,011 total),
  - 2 Meter Readers (\$8,570 total),
  - 1 Human Resources Assistant (\$2,361),
  - 1 Property & Evidence Custodian (\$5,380),
  - 1 Recreation Supervisor (\$2,510),
  - 5 Refuse Drivers (\$24,203 total),
  - 1 Utility Billing Manager (\$22,648), and
  - 1 Utility Maintenance Worker (\$5,473).
3. Raise the salary of 35 positions that are below market, third, at a cost of \$150,714.
  - 1 Accounts Payable Clerk (\$3,886),
  - 1 Assistant City Manager (\$8,481),
  - 1 Benefits & Retirement Coordinator (\$3,601),
  - 3 Crew Leaders (\$7,782 total),
  - 2 Crossing Guards (\$2,778 total),
  - 1 Customer Service Manager (\$2,577),
  - 2 Customer Service Representatives (\$9,340 total),

- 1 Electric Utility Director (\$9,272),
- 1 Engineering Technician (\$4,446),
- 1 Executive Assistant to the City Manager (\$3,288),
- 1 Financial Management Analyst (\$5,397),
- 7 Groundskeepers I (\$24,091 total),
- 1 Groundskeeper II (\$3,807),
- 1 Police Records Technician (\$4,311),
- 1 Procurement/Warehouse Specialist (\$5,088),
- 1 Public Information Officer (\$4,966),
- 1 Public Works Field Supervisor (\$5,466),
- 1 Trades Specialist (\$4,865),
- 3 Utility Line Mechanics (\$15,291 total),
- 1 Utility Line Supervisor (\$4,781),
- 1 Vehicle & Equipment Maintenance Coordinator (\$5,314),
- 1 Water Facilities Mechanic (\$5,532), and
- 1 Water Facilities Operator/Maintainer (\$6,355).

Subtotal: 68 positions, \$398,249

## 50<sup>th</sup> Percentile of Market - Police

---

1. Raise the salary of 2 positions that are below grade minimum market, first, at a cost of \$1,172.
  - 2 Communications Officers (\$1,172 total).
2. Raise the salary of 2 positions that are *substantially* below market, second, at a cost of \$25,703.
  - 2 Police Commanders (\$25,703 total).
3. Raise the salary of 29 positions that are below market, third, at a cost of \$116,033.
  - 1 Accreditation Manager/Training Coordinator (\$5,522),
  - 1 Police Chief (\$8,705),
  - 23 Police Officers (\$73,267 total), and
  - 4 Police Sergeants (\$28,539 total).
4. Raise the salary of 6 positions to the nearest step, fourth, at a cost of \$2,027.
  - 5 Communications Officers (\$1,934 total), and
  - 1 Communications Supervisor (\$92).

Subtotal: 39 positions, \$144,935

Total: 102 positions, \$543,184

# Comparators

## Purpose

To determine economically comparable organizations for inclusion in the external market study by comparing economic metrics of Green Cove Springs to those of similar communities regionally (within 60 miles) and also communities of similar size statewide. The regional communities of Jacksonville, Gainesville, and Palm Coast were excluded based on size.

## Methodology

The goal was to understand how each of the fifty-nine (59) identified communities compared with Green Cove Springs. The six (6) metrics that were chosen for evaluation were Population, Median Property Value (MPV), Median Household Income (MHI), Poverty Rate (Pov Rate), Labor Force Participation Rate (LFP Rate), and Unemployment Rate (U Rate). Each metric was assumed to be equally important.

A statistic was produced for each metric by first taking the absolute value of the difference between the metric for a similar community and the same metric for Green Cove Springs, for example, the difference between the population of Green Cove Springs and Orange Park. The difference was then divided by the standard deviation to understand how the difference varied for each similar community in relation to the sample population of the fifty-nine (59) communities as a whole.

If any of the metrics had a value in excess of three standard deviations, then the community was considered to not be a good comparator for Green Cove Springs – highlighted in **red** below. Comparators highlighted in **green** were perceived by the client as a valid comparator.

From a statistical perspective, Chebyshev's Inequality Theorem indicates that 88.8% of all data values would be within three (3) standard deviations of the mean for a generic distribution. If a normal distribution exists, then values less than three (3) standard deviations account for 99.73% of the population. The choice of comparison is therefore statistically sound and appropriate.

## Additional Comparators

The following list of additional comparators was added by the project team to ensure that all staff are fairly represented in the study.

- Clay County
- Clay County Utility Authority
- Clay Electric
- Florida Power & Light (FP&L)
- Jacksonville Electric Authority (JEA)
- Neptune Beach
- St Johns County

Paypoint also reached out to regional electric departments to more completely understand compensation for employees engaged in electric services, namely

- Bushnell
- Kissimmee
- Lakeland
- Lake Worth Beach
- Newberry
- New Smyrna

## Sample Calculation

### Sample Calculation for Orange Park

Population Statistic

Maximum Population = 25,864 (Groveland)

Minimum Population = 8,959 (Orange Park)

Green Cove Springs Population = 10,217

Orange Park Population = 8,959

Sample Average = 15,888

Sample Standard Deviation = 3,852

$$\text{Statistic} = \frac{|\text{Green Cove Springs} - \text{Orange Park}|}{s}$$

$$\text{Statistic} = \frac{|10,217 - 8,959|}{3,852}$$

$$\text{Statistic} = 0.33$$

## Benchmark Positions

In Table 5 through Table 14 the benchmark positions, highlighted in green, used in the external survey are presented. Positions that were analyzed but not included in the external survey are unhighlighted.

## Baseline Analysis

### Current Salary Schedule

Paypoint reviewed the salary schedule for all job titles, presented in Table 15. Midpoints for each salary grade have also been calculated for comparison with external market data.

**Table 15 – Current Salary Schedule**

Current Grade	Min	Mid	Max
101	\$15.60	\$16.62	\$22.61
102	\$15.60	\$17.45	\$23.75
103	\$15.60	\$18.31	\$24.92
104	\$15.60	\$19.24	\$26.17
105	\$15.60	\$20.20	\$27.49
106	\$16.31	\$21.21	\$28.87
107	\$17.13	\$22.27	\$30.30
108	\$17.98	\$23.38	\$31.82
109	\$18.88	\$24.55	\$33.41
110	\$19.83	\$25.78	\$35.09
111	\$20.82	\$27.07	\$36.83
112	\$21.86	\$28.42	\$38.67
113	\$22.95	\$29.84	\$40.61
114	\$24.10	\$31.34	\$42.64
115	\$25.31	\$32.90	\$44.77
117	\$27.90	\$36.28	\$49.36
118	\$29.30	\$38.08	\$51.83
120	\$32.30	\$41.98	\$57.14
122	\$35.61	\$46.29	\$63.00
123	\$37.39	\$48.61	\$66.15
126	\$43.28	\$56.26	\$76.58
127	\$45.45	\$59.08	\$80.41
129	\$50.11	\$65.14	\$88.65

Spread measures the percentage difference between the maximum and minimum salary for a position. It is also an indication of the lateral progression available to an employee within their job title. A narrow spread often leads to wage compression as the maximum salary is quickly achieved. A narrow spread can also lead to low morale and high turnover as economic advancement is limited. The salary schedule from Table 15 has an inconsistent spread ranging from 44.9% to 77.0% as is shown in Table 16. It is important that the spread is consistent amongst all employees so that all positions have relatively equal advancement opportunities.

**Table 16 – Current Spread and Ladders**

Current Grade	Spread	Min Ladder	Mid Ladder	Max Ladder
101	44.9%			
102	52.2%	0.0%	5.0%	5.0%
103	59.7%	0.0%	4.9%	4.9%
104	67.8%	0.0%	5.1%	5.0%
105	76.2%	0.0%	5.0%	5.0%
106	77.0%	4.6%	5.0%	5.0%
107	76.9%	5.0%	5.0%	5.0%
108	77.0%	5.0%	5.0%	5.0%
109	77.0%	5.0%	5.0%	5.0%
110	77.0%	5.0%	5.0%	5.0%
111	76.9%	5.0%	5.0%	5.0%
112	76.9%	5.0%	5.0%	5.0%
113	76.9%	5.0%	5.0%	5.0%
114	76.9%	5.0%	5.0%	5.0%
115	76.9%	5.0%	5.0%	5.0%
117	76.9%	10.2%	10.3%	10.3%
118	76.9%	5.0%	5.0%	5.0%
120	76.9%	10.2%	10.2%	10.2%
122	76.9%	10.2%	10.3%	10.3%
123	76.9%	5.0%	5.0%	5.0%
126	76.9%	15.8%	15.7%	15.8%
127	76.9%	5.0%	5.0%	5.0%
129	76.9%	10.3%	10.3%	10.2%

Ladders define the percentage salary difference between consecutive groups of job titles. Ladders can be used to differentiate employees with different knowledge, skills, and abilities and motivate career advancement. The ladders, that is, the percentage difference between consecutive minimums, consecutive midpoints, and consecutive maximums, is inconsistent ranging from 0.0% to 15.8%. It is recommended that the ladders be consistent between grades.

## Salary Distribution by Department

The salary distribution at the City is shown in Figure 1 below. The label “Percentage of Employees” on the ordinate y-axis reflects the total number of employees. The two departments with more than 10% of the workforce, Police and Public Works, are highlighted.

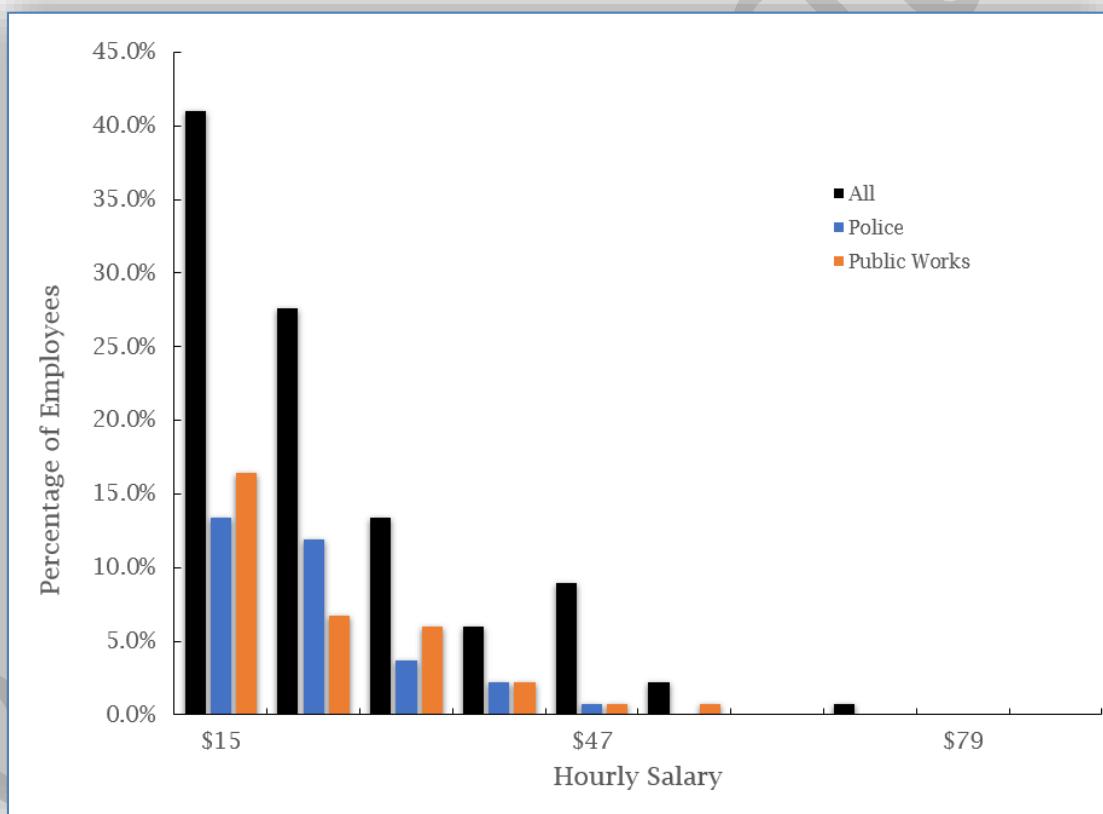

Figure 1 – Salary Distribution

## Observations

- In examining the concentration of all employees (black column), a couple of observations can be made: more than 1 employee in 5 earn less than \$20 per hour; and nearly 2/3rds of employees are compensated below the Median Household Income of \$63,760 for Green Cove Springs.
- In examining Quantile-Quantile plots of the highlighted departments, compensation is approximately normally distributed in both departments (85.1%  $R^2$  for Police and 85.1%  $R^2$  for Public Works). This is highly desirable as it demonstrates clear wage progression in the respective departments without an abundance of entry wage or max wage employees - 81% of Police and 70% of Public Works are within 1 standard deviation of the average salary.
- The concentration of employees in the upper end, top 20%, of the salary range (1 of 134 employees, 0.7%) in comparison to the lower end is not elevated, meaning that the organization is not top-heavy with respect to compensation.

## Salary Distribution Observations by Grade

Table 17 examines salaries of all employees with respect to the maximum and minimum of each job title. In Table 18 the distribution of salaries above or below the midpoint of each job title is presented. Grades with more than 5% of the workforce were further analyzed. Grades with no employees were not included.

## Observations

- There is a high concentration of employees (1 in 5 or 20%) in grades 102, 111, and 112 near the minimum of the respective grade and in grade 1117 near the maximum. This is not true for the organization overall. In general, a high concentration of employees at the extremes can lead to or be the cause of systemic employment issues including low morale, retention, etc.
- There is a high concentration of employees (2 in 3 or 67%) in grades 102 and 112 below the midpoint of the respective grade and in grades 104, 108, and 117 above which would suggest a skewed distribution of salaries. This is not true for the organization overall.

129	1	1	100.0%	0	0.0%
Total	153	66	43.1%	65	42.5%

## Compression Analysis

Wage compression primarily occurs for one of three reasons: one, new or less tenured employees are compensated at a wage close to or higher than more experienced employees in the same position; two, employees are compensated substantially different for the same degree of knowledge, skills, and ability required, that is, in the same grade; and three, supervisors are compensated less than the employees they supervise. The first two avenues of compression are examined below.

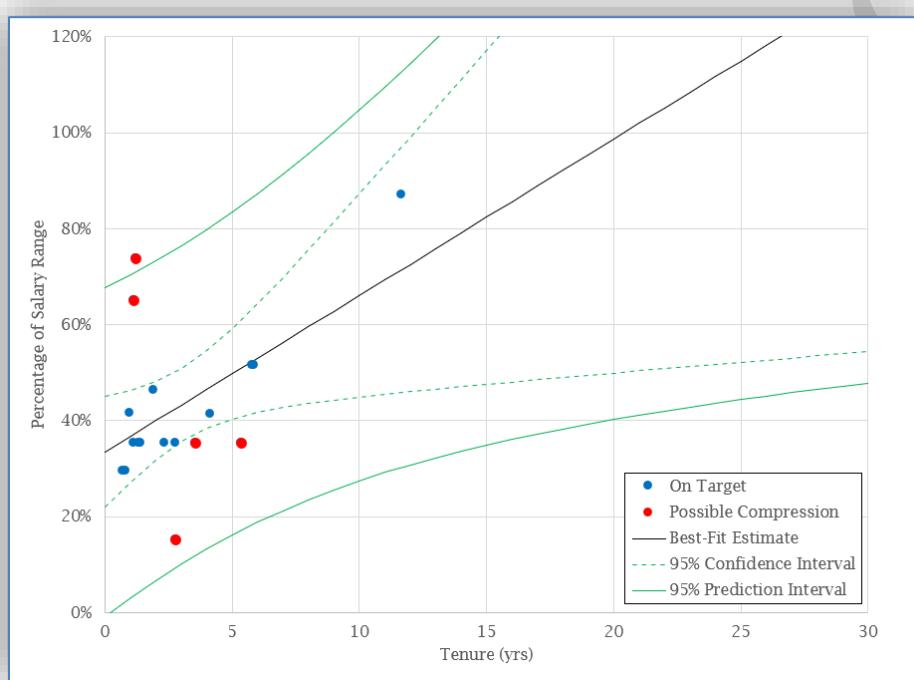

Figure 2 - Compression Plot for Grade 104

A graphical illustration of a compression analysis is presented in Figure 2. The solid black line is a linear regression “Best-Fit Estimate” line indicating the trend in pay for the grade. The prediction intervals, the two solid green lines, represent the 95% prediction interval. In other words, all future salaries should fall between the solid green lines, i.e. a prediction. More importantly, the confidence intervals, the two dashed green lines, bound with 95% confidence the average expected salary at a given level of tenure. In other words, current salaries of employees should fall between the dashed green lines. When salaries fall outside the dashed green lines, compression may exist and should be examined for possible adjustment (dots highlighted in red).

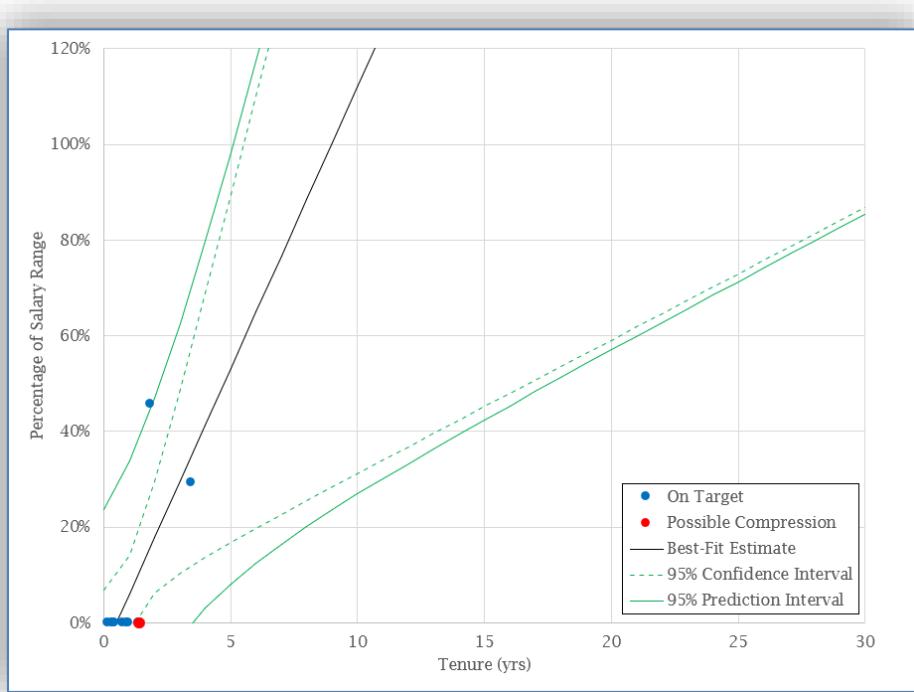

For positions that are compensated above the upper dashed green line, the employee may be receiving higher compensation due to additional knowledge, skills, and abilities. That examination is beyond the scope of this project.

However, in instances where a salary is below the lower dashed green line in Figure 2, then the employee is currently under compensated relative to peers due to compression. It is recommended that salaries for these individuals be adjusted to bring them into better alignment, mitigating compression. In tabular format, the positions in question are as follows.

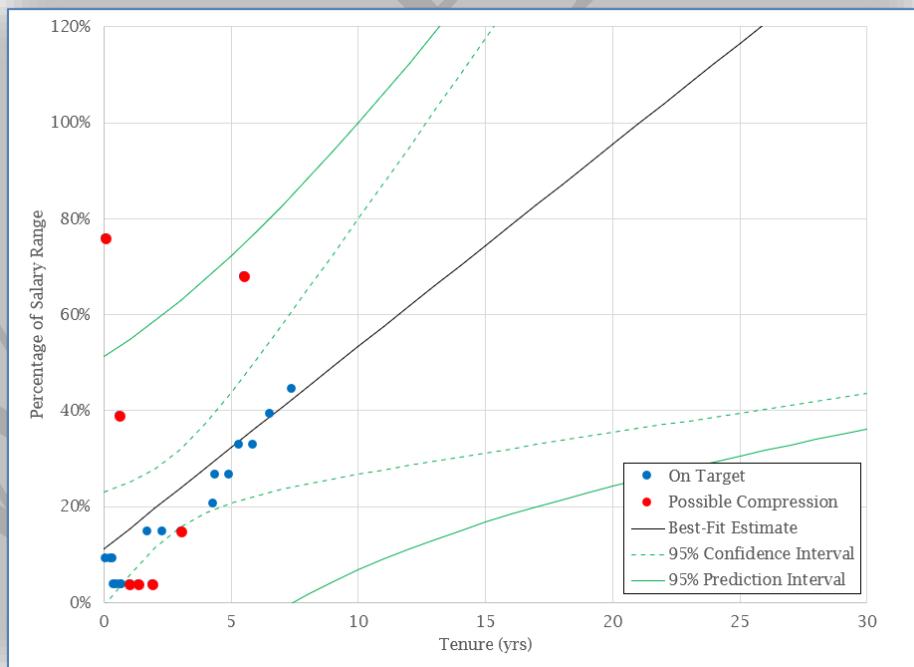

**Table 19 – Compression**

Current Grade	Title	Current Pay	Adjusted Pay
102	Groundskeeper I	\$15.60	\$15.75
102	Laborer I	\$15.60	\$15.77
104	Groundskeeper II	\$19.34	\$19.92
104	Laborer II	\$19.34	\$19.54
104	Recreation Supervisor	\$17.21	\$19.28
112	Police Officer	\$24.36	\$24.52
112	Police Officer	\$22.50	\$22.84
112	Police Officer	\$22.52	\$23.20
112	Police Officer	\$22.52	\$23.71

Compression plots for other grades where compression has been identified follows:

**Figure 3 - Compression Plot for Grade 102**

**Figure 4 - Compression Plot for Grade 112**

## Compression within Departments

The third avenue of potential compression within departments between supervisors and the employees they supervise was also examined.

**Table 20 – Compression within Department**

Current Grade	Title	Current Pay	Adjusted Pay
120	Electric Utility Superintendent	\$52.62	\$52.86
104	Recreation Supervisor	\$17.21	\$18.25
104	Groundskeeper II	\$19.34	\$20.31

There are three possible instances of this form of compression: one in Electric, one in Parks & Recreation, and 1 in Public Works. It is recommended that supervisor pay be at least one ladder above the salary of employees supervised (5% for Green Cove Springs).

## Compensable Factor Score from Position Vantage Point

Employees and supervisors participated in the Position Vantage Point Job Survey to assist in determining the internal hierarchy of positions in the City. Questions asked in the PVP are divided into four areas: Background, Authority, Skill, and Environment. In these four areas, the following compensable factors were examined:

Education	Complexity
Certifications	Independence
Work Duties	Impact
Work Experience	Physical
Financial Authority	Working Conditions
Supervision	Interaction

Points are assigned to each of the different compensable factors and correlated with the findings of the external market survey, producing the Compensable Factor Score (CFS) as is shown below in Table 21. All job titles were examined as part of this study.

Table 21 – Compensable Factor Score

Position Classification	CFS Score
Assistant City Manager	661.0
Police Chief	379.5
Electric Utility Director	349.2
Finance Director	338.8
Human Resources Director	305.6
Public Works Director	296.5
Development Services Director	278.5
Information Services Director	249.2
Electric Utility Superintendent	183.2
Assistant Public Works Director	152.3
Assistant Water Utilities Director	151.4
Chief Building Official	142.8

Position Classification	CFS Score
Police Commander	132.5
Planning & Zoning Director	122.2
Assistant Finance Director	105.4
Electric Line Crew Leader	104.6
Building Official	80.8

Police Records Technician	14.0
Development Services Representative	13.7
Recreation Supervisor	13.6
Utility Maintenance Worker	13.4
Customer Service Representative	13.3
Storekeeper /Warehouse Worker	13.3
Human Resources Assistant	13.2
Laborer II	13.0
Secretary	12.7
Refuse Driver	12.6
Groundskeeper II	12.6
Accounts Payable Clerk	12.4
Refuse Collector	11.9
Recreation Aide	10.5
Groundskeeper I	10.4
Clerk Typist	9.6
Crossing Guard	9.4
Laborer I	9.3
Custodian	8.7

## External Market Comparison

A summary of the findings of the external market analysis is presented in Table 22 through Table 26. In Table 27 through Table 36, the external market findings for all position classifications is presented, sorted alphabetically. The minimum, midpoint, and maximum hourly salary for each position classification is presented first. The market average (mean) and the various market quantiles are then presented. Lastly the Compa-Ratio, the ratio of the grade's midpoint divided by the **50th percentile** from the external market, which measures the extent of the deviation of the current salary range in comparison to the market median, is presented.

**Table 22 – Full-Time Positions Substantially Below Market (Compa-Ratio % Diff < -10%)**

Apprentice Electric Lineman	Meter Reader
Assistant Finance Director	Parks & Recreation Coordinator
Building Assistant	Police Commander
Building Inspector	Property & Evidence Custodian

Communications Supervisor	
---------------------------	--

### Sample Calculation of Compa-Ratio: City Clerk

Current Grade = 118

Current Midpoint of Grade = \$38.08

50<sup>th</sup> Percentile of Market = \$43.25

$$\text{Compa - Ratio} = \frac{\text{Current Midpoint}}{\text{50th Percentile}} - 1$$

$$\text{Compa - Ratio} = \frac{\$38.08}{\$43.25} - 1$$

$$\text{Compa - Ratio} = -12.0\%$$

## *Proposed Salary Schedules*

A regression analysis of the CFS Score and the salary survey results indicate that market median salary for all positions is predicted very well by the CFS Score. The coefficient of determination is 97%, in other words, the knowledge, skills, and abilities identified in the employee/manager Position Vantage Point job description survey correlate very well with the external markets' valuation of the job positions at Green Cove Springs.

### **For General Employees**

The following salary scale is recommended for general employees, presented in Table 37.

The spread between the minimum and maximum salary for all employees was set to 60%, the average market spread of 54.1%. The Ladders, i.e., the distance between grades, was set to be 5.0%. Larger Ladders were included to increase the incentive for employees to seek positions of greater responsibility and to make it financially beneficial.

### **For Police**

A 14-step salary scale, with each step a consistent percentage, is recommended for the Police Department is shown in Table 38. The minimums, maximums, and ladders are equivalent to the salary scale for general employees. Advancement between steps is not recommended necessarily on a yearly basis.
