The Reclaimed Water Fund (Utility) and proposed rates were established in 2016. As the city has not had a fully functional **residential** reclaimed water system, there has been no update or review of the rates since 2016. Beginning in early 2025, upon completion of improvements to the Harbor Road Water Reclamation Facility, the city will begin supplying reclaimed water to customers that have reclaimed water infrastructure in their development.

The proposed reclaimed water rates mirror the potable water irrigation rates.
